

About HackTronix 1.0

Welcome to HackTronix 1.0 – a 24-hour tech marathon where innovation meets determination. This hackathon helps in pushing boundaries, solving real-world problems, and turning ideas into reality. Whether you're an expert coder, a budding developer, or someone with a big idea, HackTronix 1.0 is the perfect platform to learn, collaborate, and create something incredible.

The Challenge

Within 24 hours, you and your team will design, and develop a functional prototype that tackles real-world challenges with problem statements covering both software and hardware, you have the freedom to explore:

- Artificial Intelligence & Machine Learning
- Robotics & IoT
- Cybersecurity & Blockchain
- AR/VR & Metaverse
- Smart Cities & Sustainable Tech
- FinTech, HealthTech, and EduTech

Why Join us?

Here's what's in store for you:

Industry mentors – Connect with industry experts, mentors, fellow innovators and get real-world guidance from tech experts.

Networking with peers & professionals -Meet like-minded hackers and potential future collaborators.

Compete for Exciting Prizes & recognition – A prize pool worth ₹25,500 awaits the best minds and get noticed by top leaders and recruiters.

Hands-on experience – Step out of the classroom and apply your skills to real-world problems.

Fast-Paced, High-Impact Experience – Build, prototype, and pitch your ideas in just 24 hours.
